

tesa® Plate Mounting Tapes for Corrugated Board Postprint

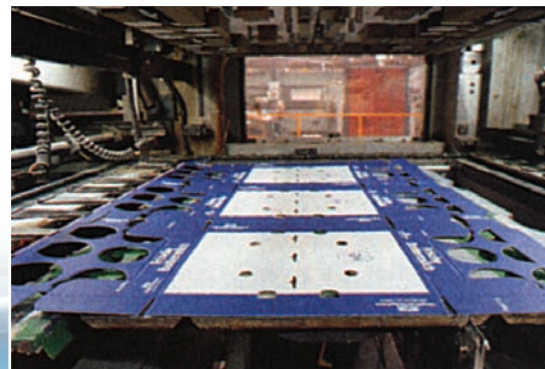

A Wide Range of Tapes Tailored to Your Specific Needs

tesa provides solutions for the specific requirements of the corrugated postprinting process as part of its complete assortment of plate mounting tapes. The tesa assortment is comprised of tapes of various thicknesses of film or fabric, in combination with natural rubber or acrylic adhesives — always tailored to the particular application.

tesa® Plate Mounting Tapes for Postprint feature:

- The correct thickness range for registration optimization
- The right adhesive strength to reduce platelift
- Optimized release liners for ease of handling
- Various dimensions to meet your specific requirements
